

FACT

With a deep commitment to sustainable practices, FACT helps you create healthier, stress-free spaces that are better for people and the environment.

Materials

FACT tiles are made from Polyester (PET) felt that contains 60% pre-consumer recycled content. You can recycle 100% of your FACT products. Even our hardware is made of PET.

Colors

We offer a streamlined palette of 4 colors for all products, minimizing the storage needed to house materials and the overall footprint of our FACTory keeping the energy used to a minimum.

Shipping

Our uniquely compact, flat-pack shipping reduces waste and shrinks the carbon footprint of transporting FACT products to you.

Community

We're proud to contribute sustainability-focused manufacturing jobs to the town of Sweetwater, Tennessee. Supporting small rural communities in the US helps to strengthen their economies and provide better quality of life. Plus, it's just the right thing to do.
